WPL-A 07

A versatile and futureproof
hot water, heating and cooling
supply for your build

WPL-A 07

AIR SOURCE HEAT PUMPS

Heat efficiently and protect the environment

The WPL-A Premium air source heat pump is not only suitable for heating and hot water, but also provides cooling in the summer months. Since the inverter unit achieves high flow temperatures even at very low outside temperatures of down to -25 °C, it is equally suitable for use in new build and renovation projects. The WPL-A HK Premium contains a futureproof refrigerant. In combination with its high efficiency, the heat pump scores highly as an environmentally responsible heating technology.

Product features

- › Air source heat pump for heating, hot water and cooling
- › Inverter technology provides adjusted heating output
- › High flow temperatures of up to 75 °C enable high DHW temperatures and mixed water volumes
- › Low operating costs through high efficiency all year round
- › Smart Grid ready for connection to solar PV and energy management systems

Dimensions

Type		WPL-A 07 Premium
Article no.		200123
Energy efficiency class		A+++ (35°C) / A+++ (55°C)
Rated voltage	V	230
Heating output at A7/W35 (min./max.)	kW	2.65 / 10.75
Heating output at A7/W35 (EN14511)	kW	3.31
Coefficient of performance at A7/W35 (EN14511)		5.42
Sound power level (EN 12102)	dB(A)	48
Sound pressure level at 5 m distance in a free field	dB(A)	26
Max. application limit on the heating side	°C	75 °C
Height/Width/Depth	mm	900/1270/593
Weight	kg	135

STIEBEL ELTRON is committed to our policy of continual improvement, some features may have subsequently been changed or even removed. Our advisors will be happy to consult with you regarding the currently applicable equipment features. The images used in this data sheet are for reference only.
