STIEBEL ELTRON

WPL 57

AIR SOURCE HEAT PUMPS

Comfortable heat for high performing homes

For properties with a high demand, the WPL 57 air-water heat pump is a strong contender for many reasons. The appliance has an installed height of just 1.5 meters and can be installed outside. By means of cascade control, the already impressive output of this power pack can even be multiplied. As a result, it also offers a tailor-made solution for a wide range of apartment buildings. This means that efficient and quick to install heating technology now also has a role to play in the modernisation of larger properties.

Product features

- › Engineered for outdoor installation including a corrosion-protected casing
- › Advanced technology ensures an excellent COP at low outside temperatures
- › Ideal for new builds and retrofits of commercial buildings
- › Suitable for large apartment buildings
- › Cascade multiple units for up to 186 kW heating output

Dimensions

Type		WPL 57
Article no.		228837
Energy efficiency class		A+ / A+
Rated voltage	V	400 (3 phase)
Output at A7/W35 (EN14511)	kW	31
Coefficient of performance at A7/W35 (EN14511)		3.59
Sound power level (EN 12102)	dB(A)	69
Sound pressure level at 5 m distance in a free field	dB(A)	47
Max. application limit on the heating side	°C	60
Height/Width/Depth	mm	1485/1860/2040
Weight	kg	600

Installation requirements as per AS/NZS3000.
