

STIEBEL ELTRON

HSBC 200 S

Intelligent combination
for space advantage

STIEBEL ELTRON

HSBC 200 S

INTEGRAL CYLINDERS

Neat technology on the smallest footprint

The HSBC 200 integral cylinder is a combi unit comprising a buffer cylinder and DHW cylinder. Thanks to its capacity of up to 168 litres, this space saving appliance is perfect for supplying a detached house.

The equipment level of the HSBC 200 L integral cylinder is optimised for use with certain air source heat pumps from STIEBEL ELTRON. Combined with the WPL range, you get an unbeatable combination for your home.

Product features

- › Combi unit comprising a DHW cylinder with a capacity of up to 168 litres and a buffer cylinder
- › Cuts the footprint required for individual cylinders in half
- › Compact, reliable and energy efficient for use in detached houses
- › Perfect for use in conjunction with an air source heat pump for DHW and room heating
- › On-board WPM controller
