

STIEBEL ELTRON

HSBC 300

Cool

An intelligent combination of a hot water cylinder and buffer cylinder for space advantage

HSBC 300 cool AU

INTEGRAL CYLINDER

An Intelligent combination for space advantage

With the HSBC 300 cool integral cylinder, the hot water cylinder and buffer cylinder are not arranged side by side, but in a single appliance, piggyback style. This almost halves the footprint required, so installation is possible even where space is tight, leaving you with much more room than you expected.

The HSBC cool, precisely matched to utilisation with a heat pump, covers everything required in a detached house when it comes to heat and domestic hot water. All that and in a convenient format, with an inbuilt onboard WPM 4 controller.

Product features

- › Combi appliance comprising a domestic hot water tank and a buffer tank
- › Halves the installation space required for individual tanks
- › Compact, compatible and energy saving for use in detached houses
- › Perfectly matched components for use in conjunction with an air | water heat pump for domestic hot water, room heating, and cooling.
- › NEW: integrated heat pump manager WPM for even easier system installation

Dimensions

Type		HSBC 300 cool AU Premium	
Article no.		204650	
Nominal capacity, buffer cylinder	L	100	
Nominal capacity, DHW cylinder	L	270	
Energy efficiency class		B	
Standby energy consumption/24 h at 65 °C	kWh	1.6	
Capacity, indirect coil	L	21	
Max. permissible pressure, buffer cylinder	MPa	0.3	
Height	mm	1918	
Width	mm	680	
Depth	mm	910	
Weight (dry)	kg	250
